EXPERIENCE

Freelance Web Developer

April 2024 – Present | Boulder, CO

- Build bespoke, high-performance websites using modern static site generators (Astro, Eleventy) and Content Management Systems (WordPress).
- Optimize site performance using strategies like image optimization, CDN caching, and lean codebases to achieve sub-second load times and 95+ Lighthouse scores.
- Where needed, create content management workflows with headless CMS integrations, enabling non-technical clients to update site content independently.

Development Assistant @ Sugar23

November 2022 – December 2023 | Hollywood, CA (remote)

- Evaluated manuscripts and scripts for potential TV/film adaptation at the production company behind Netflix hits *Maniac* and *The OA*.
- Wrote comprehensive script coverage analyzing the story and market potential, offering adaptation recommendations that informed executive decision-making.
- Delivered high-quality 10-page coverage reports for two ~300-page manuscripts weekly, maintaining consistent output while meeting tight deadlines.

Freelance Journalist @ The Big Bend Sentinel

September 2022 – December 2023 | Marfa, TX

- Produced compelling local journalism covering community events and grassroots activism, developing expertise in interview techniques and deadline-driven writing.
- Conducted in-depth interviews with community leaders, activists, and local stakeholders to uncover compelling narratives and ensure accurate representation.
- Balanced journalistic integrity with narrative storytelling to create articles that were informative, engaging, and accessible.

Shopify Store Manager @ The Marfa Store

January 2022 – December 2023 | Marfa, TX

- Managed the Shopify storefront and inventory across 100+ SKUs, ensuring accurate stock levels, timely restocks, and a seamless online shopping experience.
- Handled order fulfillment, expertly packing and shipping artwork and retail goods with secure, professional-grade techniques to ensure safe delivery.
- Provided top-tier customer support, resolving inquiries and order issues promptly while fostering positive client relationships that enhanced brand reputation.

General Manager @ The Sentinel

March 2021 – November 2021 | Marfa, TX

- Managed front-of-house operations, delivering exceptional customer service and fostering a welcoming, community-oriented atmosphere.
- Led hiring efforts by crafting compelling job postings, conducting interviews, and implementing a standardized training program to ensure team consistency and efficiency.
- Oversaw inventory management, vendor relations, and supply ordering to optimize costs and maintain seamless operations.

WordPress Developer @ The Sentinel

November 2020 – November 2022 | Marfa, TX

- Designed, developed, and launched an e-commerce platform using WordPress and WooCommerce, enhancing the business's digital presence and revenue potential.
- Refined site architecture and user interface to streamline navigation and maximize conversions, leading to a more seamless customer experience.
- Implemented SEO-driven strategies, including keyword optimization and engaging product descriptions, to boost organic search visibility and drive consistent traffic.

PROJECTS

ReGreen Big Bend

January 2025 – February 2025

- Developed a custom WordPress theme for an environmental restoration project in Far West Texas.
- Designed high-fidelity mock-ups in Figma with a focus on regional aesthetics and responsive design.
- Optimized performance through strategic asset loading and caching to achieve 95+ Lighthouse scores.

Postoley Dance Ensemble

November 2024 – February 2025

- Built a website for an independent folk dance studio in Boulder, CO.
- Transformed the legacy site into a modern, component-based static website using Astro, achieving 95+ Lighthouse performance scores.
- Integrated a headless CMS so the client could update site content independently.

Digital Notebook

September 2024 – December 2024

- Built a digital knowledge base using Obsidian and Eleventy.
- Automated build process to transform wiki-style notation into standard Markdown and generate bidirectional links.
- Developed custom privacy controls to automatically exclude sensitive content from version control and public deployment.

Prairie Rose Arena

April 2024 – May 2024

- Built a custom static website for an equestrian event center in Elkhart, IA.
- Conceived and implemented a complete site redesign with a mobile-first, responsive approach.
- Integrated a headless CMS to allow the client to independently manage events.
- Optimized performance through modern build processes, lazy loading, and asset optimization.

Personal Website

May 2024 – June 2024

- Built a high-performance personal site using Astro and Cloudflare Pages, achieving sub-second load times and 100/100 Core Web Vitals scores.
- Used a component-based architecture with scoped CSS modules, reducing CSS payload while maintaining design consistency.
- Implemented performance optimizations including prefetching and an automated image optimization pipeline for WebP/AVIF delivery.

VOLUNTEER

Wix Developer & Horseback Riding Instructor @ Community Health and Equine Coalition

April 2024 – May 2024 | Galveston, TX

- Redesigned and maintained the organization's website using Wix CMS, enhancing user experience and accessibility.
- Integrated a secure payment gateway, streamlining the donation process and increasing fundraising efficiency.
- Instructed clients aged 13-25 in horseback riding, fostering skill development and confidence.

Theater Staff @ The Frida Cinema

March 2019 – March 2020 | Santa Ana, CA

- Assisted in theater operations, including ticketing, concessions, and customer service, ensuring a seamless guest experience.
- Maintained a welcoming and informative environment by providing guests with film details, schedules, and theater policies.
- Solicited donations at the register, supporting fundraising efforts for independent film programming.
